

Recycled Magazine Art

Supplies:

- Recycled Magazines (or Construction Paper)
- Cardboard
- Scissors
- Glue
- Tape (optional)

Instructions:

1. Using scissors, carefully cut your cardboard into any shape you would like – It can be a square, a sports team logo, or even the shape of your favorite animal!
2. Using scissors, carefully cut your magazine pages (or construction paper) into small strips
3. From here, you can decide to create your piece one of two ways:
 - a. Glue your magazine strips to your cardboard to create a collage! OR
 - b. Roll your magazine strips, and then glue them to your cardboard! Be sure to keep each roll as tight as you can and glue (or tape) the ends to keep it from unraveling.
4. Once your piece is dry, put it on display!
